DETAILED ACTION

Allowable Subject Matter

1. Claim 1, 2, 6, 7, 9, 10 and 12-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: "the columnar body has a three-point bending strength $F\alpha$ (MPa) measured in accordance with JISR1601, the plurality of plugs has a length L (mm) in the length direction, and the columnar body and the plurality of plugs are formed such that the three-point bending strength $F\alpha$ (MPa) and the length L (mm) are adjusted to satisfy the relationship of $F\alpha \times L \geq 30$." could not be found within the prior art. More specifically the relationship between the three-point bending strength of the columnar body and the plug length, resulting in an improved resistance to cracking without "excessive diminishing of the porosity and plug requirements (page 6 of the applicant's arguments dated 04/08/2009) could not be found within the prior art.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
